

Dear Customer,

Welcome to a new edition of the WEGENER International newsletter, keeping you informed of the latest offers and news.

Visit us,

on Booth A 40 in Hall 11 at the world's number 1 trade fair for plastics and rubber, K 2016, in Düsseldorf between 19 and 26 October 2016. Convince yourself of Wegener's innovative strength and let yourself be inspired. Apart from the familiar range of machinery and equipment, we will also be presenting a wide variety of new products.

And these are the new products you can expect on our booth:

W EXWELD mini2 extruder

The 2nd generation of the compact but powerful extruder in the mini series

W EXWELD aero extruder

Powerful, hot air-operated extruder in a class of its own

W EXWELD aero C extruder

The version of the EXWELD aero with hot-air temperature control. More comfort and easier operation

W EXWELD sigma3, alpha3, beta3 und gamma3 series extruders

The latest generation of this series of extruders will surprise you with a number of new features. Apart

from the completely newly developed control system, this is also the first time the new WEGENER Airbox has been used as an air heater

W BM 306A welding by ending machine

A completely newly developed and more powerful bending machine as a successor to the world market leader, the BM 305

W UBD U-bending device

A device to produce U-channels to cover the steel reinforcements of rectangular containers.

Other things you will find on our booth include:

W SC series butt welding machine

The compact model - for panels up to 20 mm thick

W ST series butt welding machine

The efficient model - for panels up to 25 mm thick

W SM 440 butt welding machine

The universal model - with 90° welding technology; machines in this series are available for maximum panel thicknesses of 30 mm, 40 mm, 50 mm and 60 mm

W SR circular drawing device

The proven circular drawing device for panels up to 30 mm thick; improves the reproducibility and safety when manufacturing cylindrical blanks

W WEGENER Exotherm

Hot gas welder with its own air supply that focuses exclusively on welding in a unique design

W WEGENER Autotherm3

Controlled hot gas welder with external air supply

W WEGENER hot gas welding technology and fans

The complete portfolio of hot gas welding technology, fans and accessories.

We are looking forward to your visit and to welcoming you in person on our trade fair booth.

We will, as always, cater for your every need.

Best wishes

Bernd Roßkampff
Managing Director
